

CORPORATE MEMBERSHIP

JOIN OUR VISION FOR THE FUTURE

- ▶ We are the self-regulatory body for the UK’s cyber profession with the ability to charter cyber security professionals.
- ▶ Our mission is to support and cultivate the next generation of cyber professionals while advocating for standardisation growth in our sector. We do this through professional registration, career mapping, networking opportunities and thought leadership.
- ▶ As the chartered body for cyber security, we are the trusted voice for the cyber industry, not just within our membership base, but beyond.
- ▶ With stakeholder relationships across government, academia and industry, we have evolved into a central hub for the future of the cyber profession.
- ▶ Our vision is that the UK should be one of the most secure places anywhere in the world to do business in cyberspace. By joining as a member organisation, you are helping to support, shape, and grow the profession for existing personnel and the next generation.
- ▶ We’re the only organisation to hold a professional register of cyber security professionals which provides assurance of individuals’ competence after being assessed against a recognised standard (UK CSC SPCC).

Membership

WHY BECOME A MEMBER?

WHY IS CORPORATE MEMBERSHIP FOR YOU?

Our corporate membership package offers your organisation the opportunity to be a part of something bigger; a community of thousands that we harness to mobilise the collective insight of members, technical experts and more in the cyber profession. We provide opportunities for you to raise your profile and join an exclusive platform to raise awareness of your brand to professionals from a range of ages, levels of seniority and regions.

BENEFITS

Reach new audiences: Join the leaders, regulators, policymakers and cyber experts shaping the future of the cyber profession.

Become affiliated with a trusted brand: Elevate your credibility and trust of your organisation by being a part of a trusted brand that has a commitment to an Ethical Declaration.

Access the latest industry insights: Keep your business on the pulse by being the first to hear about exclusive developments, research and briefings through our member-only comms, exclusive member area and newsletter.

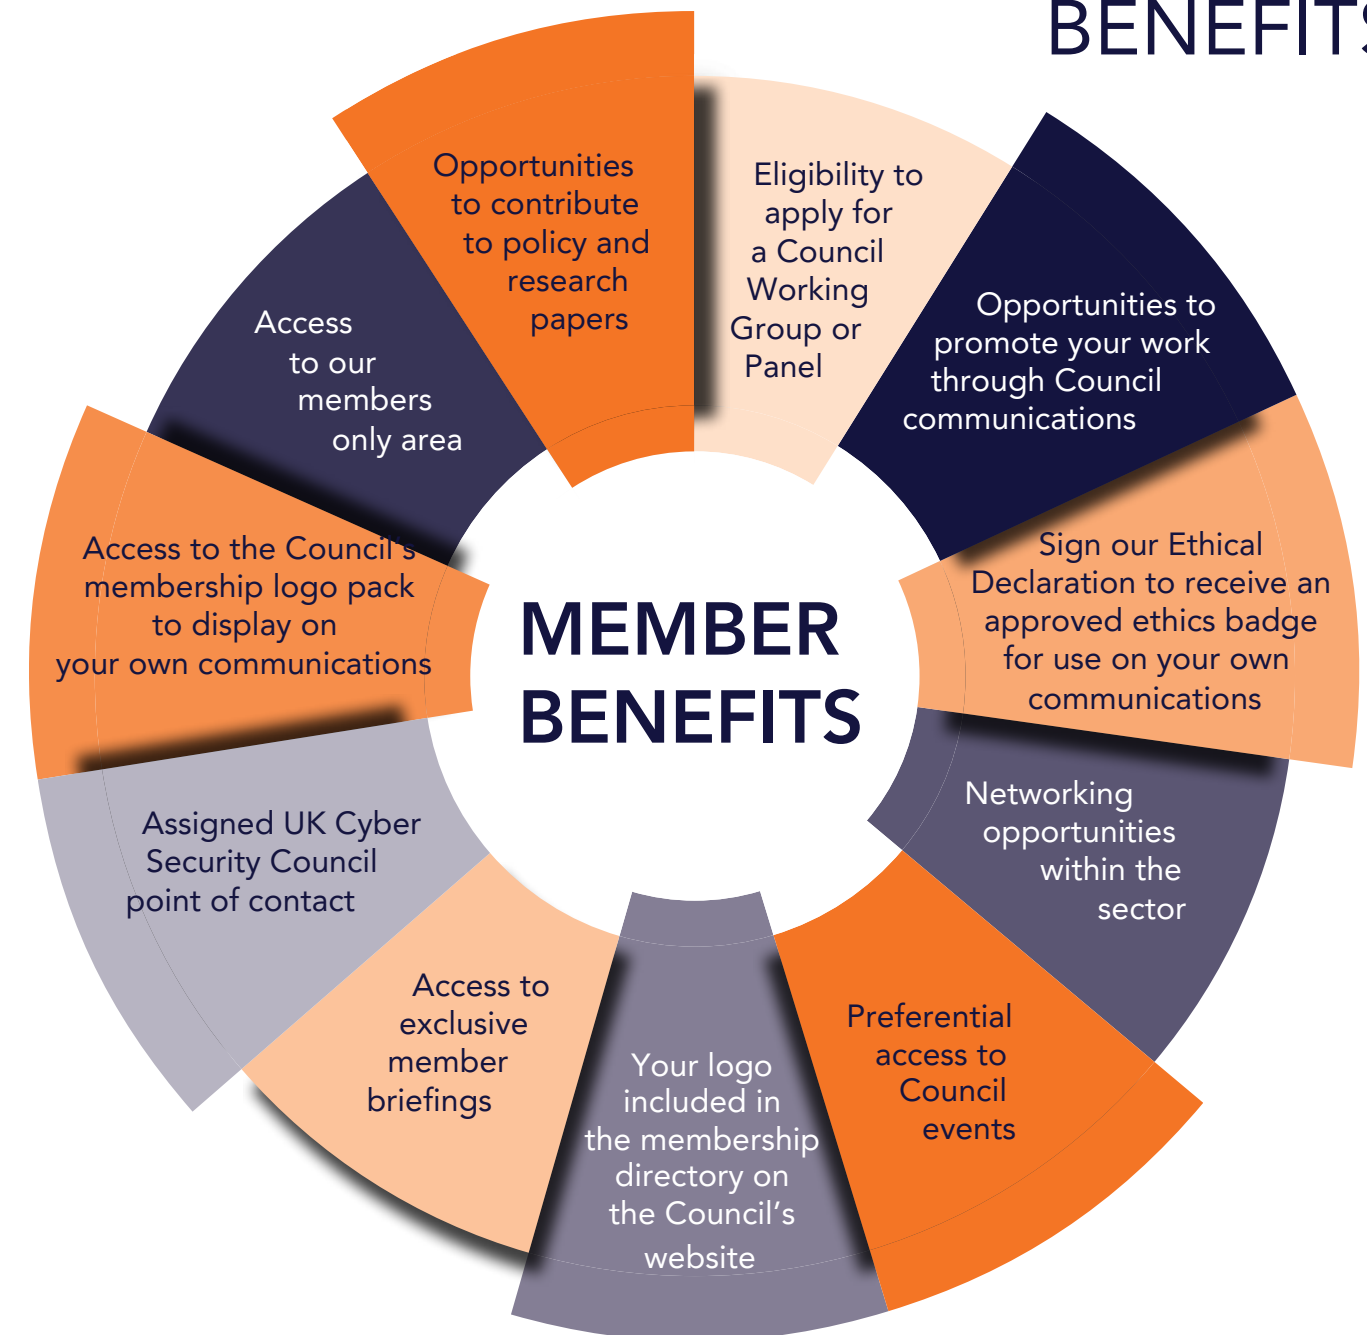

Join the conversation: Get exclusive access to our portal, events, surveys and thought leadership, making your organisation heard.

Promote your work and services: Promote and showcase your own work and brand through the Council and stand out from competitors with tailored promotion and an amplified voice on an industry level. Get preferential access to sponsorship opportunities to amplify your presence online, with virtual webinars, guest posts and more.

Become a thought leader: Being a corporate member means you are eligible to join a working group or panel and you can influence the sector and feed into our conversations with central government.

Build relationships: Network and collaborate with some of the key leaders and minds in the cyber sector, including major corporate partners.

MEMBER BENEFITS

ETHICAL DECLARATION AND CODE OF ETHICS

The Council require all organisations to sign our ethical declaration covering Credibility, Integrity & Professionalism within the sector. We also provide guidance on ethical scenarios for your staff. By becoming a member, you are showing you hold your organisation to the highest standard of ethical practice.
